

EDITOR'S MESSAGE

In 2012, the ASLP has gone international with a study tour of the entire ASLP Board in Germany through a grant given by the Bibliothek Information International and Goethe-Institut. This 2013, ASLP is co-sponsoring with the Special Libraries Association-Asian Chapter the 3rd International Conference of Asian Special Libraries on April 10-12, 2013.

The ASLP Board decided to revive the ASLP Bulletin, now referred as the ASLP Journal, in time for the ICOASL by sharing with the special library professionals the articles that were delivered by its officers in Asia, Australia and the Philippines.

A look at the past ASLP Bulletins revealed that the last issue published was in 1968 or 45 years ago. Going through the contents of the issues revealed that the ASLP has been continuously publishing it in the ASLP Newsletter which is now available in the net. In this regard, in as much as the aim of the ASLP Board to disseminate academic and scholarly articles on various topics to provide information to special libraries and library professionals, the ASLP Journal is born.
