

Can a simple librarian implement Koha ILS?

 *kohacon17*

Prepared by Jerwyn Gutierrez Fernandez
Onstrike Library Solutions - President

A grayscale photograph of a group of students in a library or classroom setting. They are gathered around a table, looking at books and papers. A semi-transparent dark gray rectangle is overlaid on the center of the image, containing the Koha ILS logo and the text 'Can you implement Koha ILS?'. The Koha ILS logo consists of a green circular icon with a stylized 'K' and the text 'Koha ILS' in a green serif font. The text 'Can you implement' is in a large, white, sans-serif font, and 'Koha ILS?' is in a smaller, white, sans-serif font.

Can you implement
Koha ILS?

A group of students in a classroom setting, with a semi-transparent text box overlaid. The text box contains the text "Shohaseon 12" in a green, cursive font. The background is a grayscale image of students sitting at desks, looking at papers and talking.

You will find out
at the end of my
presentation.

News

Welcome to Koha

Welcome to Koha. Koha is a full-featured open-source ILS. Developed initially in New Zealand by Katipo Communications Ltd and first deployed in January of 2000 for Horowhenua Library Trust, Koha is currently maintained by a team of software providers and library technology staff from around the globe.

A dimly lit classroom or computer lab. In the foreground, several students are seated at desks, working on computers. The desks are cluttered with various items like water bottles, papers, and computer peripherals. In the background, a male teacher in a light blue shirt stands near a whiteboard, gesturing with his hands. The overall atmosphere is quiet and focused.
